Ruchita Parmar - DJSCOE 75/75

The professors of **SARASWATI** is one of the best teachers I have come across. Sirs teaching skills are excellent and their patience and helpful nature are a cherry on the cake. Every ED lecture was thoroughly enjoyable and it never felt burdensome. I especially enjoyed drawing Isometric and Orthographic views. The credit of my score goes to **SARASWATI**. Thank You!

Manasi Patil - VCET 74/75

Although Engineering Drawing may be a tough subject for everyone, **SARASWATI** students master it. The credit to it goes to their ED professors. Their experience and skills helps increasing the knowledge and imagination power. They interactively clear all doubts. Their practice test and LMR are so fantastic that helped me to complete my final sem paper in **1 hr 50min**. instead of 3 hrs.

Purvam Pujari - DJSCOE -72/75

Learning Engineering Drawing at **SARASWATI** Classes with simplicity of complicated concepts, imagination of 3D models with software's thus enhancing critical thinking, erudite teaching and guidance by professors thus making students to achieve optimum results, doubt solving sessions with Last Minute Revision and test practices, thus learning with fun rather than pedantic approach makes it an amazing experience!

It was a great experience at **SARASWATI** and yes it is one of the best classes for Engineering Drawing. The reasons for my success are the proper guidance and the effective teaching style (use of 3D software's helped me to visualize the objects). I enjoyed each and every lecture and learned a lot. The professors are really helpful and solved all our doubts and paid close attention to student. Regular practice test, AutoCAD & Last Minute Revision (LMR) helped me to score such a good marks in SEM 2.
